Tono, acentos y estructuras métricas en lenguas mexicanas. (Spanish Edition)

"Este libro es fruto del trabajo desarrollado en el seminario PHONOLOGICA; los trabajos que lo componen ofrecen miradas puntuales en torno a tres grandes temas: el acento, el tono y las estructuras métricas. En su conjunto, las lenguas de estudio se articulan en familias lingüísticas: yutoazteca, maya yucateco y otomangue. Entre los temas de estudio, figuran las relaciones entre el tono, los segmentos y las posiciones de prominencia; el acento y sus correlatos fonéticos, sin faltar la reflexión diacrónica, ni la discusión en torno a las etiquetas clasificatorias sobre las propiedades prosódicas. Con este volumen se pretende empezar a llenar un hueco en la descripción y el análisis de los sistemas prosódicos de las lenguas mexicanas, algunas de las cuales, como el ixcatéco y el ocuilteco, están en grave peligro de extinción.
