## Use of model organisms in Genetics: Student-directed learning (SDL) Friederike Lange

Essay from the year 2010 in the subject Biology - Genetics / Gene Technology, grade: A4, University of Glasgow (Biology - Genetics), course: Genetics BA - Level 3, language: English, abstract: Description and designing of experiments to address the unknown function of the novel gene PUG1 in yeast (no obvious sequence homology with any known yeast gene; constantly expressed throughout cell cycle) following these questions:

- Q1) How would you determine the function of PUG1 in yeast?
- Q2) How would you identify homologous PUG1 gene(s) in one named invertebrate?
- Q3) How would you determine the function of PUG1 homologue(s) in this named invertebrate?
- Q4) How would you identify homologous PUG1 gene(s) in one named vertebrate?
- Q5) How would you determine the function of PUG1 homologue(s) in this named vertebrate?

### **From reader reviews:**

#### **Barbara Cook:**

Why don't make it to become your habit? Right now, try to ready your time to do the important work, like looking for your favorite guide and reading a e-book. Beside you can solve your trouble; you can add your knowledge by the book entitled Use of model organisms in Genetics: Student-directed learning (SDL). Try to make the book Use of model organisms in Genetics: Student-directed learning (SDL) as your friend. It means that it can to get your friend when you feel alone and beside those of course make you smarter than ever. Yeah, it is very fortuned in your case. The book makes you much more confidence because you can know almost everything by the book. So , let's make new experience and also knowledge with this book.

#### **William Troutt:**

The book Use of model organisms in Genetics: Student-directed learning (SDL) has a lot of information on it. So when you check out this book you can get a lot of benefit. The book was written by the very famous author. Mcdougal makes some research ahead of write this book. That book very easy to read you can get the point easily after looking over this book.

#### **Dale Fain:**

People live in this new time of lifestyle always aim to and must have the spare time or they will get wide range of stress from both daily life and work. So , if we ask do people have extra time, we will say absolutely of course. People is human not only a robot. Then we request again, what kind of activity do you possess when the spare time coming to anyone of course your answer will certainly unlimited right. Then do you ever try this one, reading publications. It can be your alternative inside spending your spare time, often the book you have read is usually Use of model organisms in Genetics: Student-directed learning (SDL).

#### **Veda Howard:**

Many people spending their moment by playing outside together with friends, fun activity having family or just watching TV all day long. You can have new activity to invest your whole day by reading a book. Ugh, do you think reading a book really can hard because you have to bring the book everywhere? It fine you can have the e-book, having everywhere you want in your Cell phone. Like Use of model organisms in Genetics: Student-directed learning (SDL) which is keeping the e-book version. So , why not try out this book? Let's notice.
