## **Water, Peace, and War: Confronting the Global Water Crisis** Brahma Chellaney

Now in an updated edition, this pioneering and authoritative study considers the profound impact of the growing global water crunch on international peace and security as well as possible ways to mitigate the crisis. Although water is essential to sustaining life and livelihoods, geostrategist Brahma Chellaney argues that it remains the world's most underappreciated and undervalued resource. One sobering fact is that the retail price of bottled water is already higher than the international spot price of crude oil. But unlike oil, water has no substitute, raising the specter of water becoming the next flashpoint for conflict.

Water war as a concept may not mesh with the conventional construct of warfare, especially for those who plan with tanks, combat planes, and attack submarines as weapons. Yet armies don't necessarily have to march to battle to seize or defend water resources. Water wars—in a political, diplomatic, or economic sense—are already being waged between riparian neighbors in many parts of the world, fueling cycles of bitter recrimination, exacerbating water challenges, and fostering mistrust that impedes broader regional cooperation and integration. The danger is that these water wars could escalate to armed conflict or further limit already stretched food and energy production.

Writing in a direct, nontechnical, and engaging style, Brahma Chellaney draws on a wide range of research from scientific and policy fields to examine the different global linkages between water and peace. Offering a holistic picture and integrated solutions, his book has become the recognized authority on the most precious natural resource of this century and how we can secure humankind's water future.

The book Water, Peace, and War: Confronting the Global Water Crisis is much recommended to you to see. You can also get the e-book from your official web site, so you can easier to read the book.

##### **Lois Jennings:**

The actual book Water, Peace, and War: Confronting the Global Water Crisis has a lot of information on it. So when you make sure to read this book you can get a lot of gain. The book was compiled by the very famous author. The writer makes some research previous to write this book. This book very easy to read you will get the point easily after perusing this book.

##### **Evan Miller:**

As a pupil exactly feel bored to be able to reading. If their teacher inquired them to go to the library or even make summary for some e-book, they are complained. Just very little students that has reading's spirit or real their interest. They just do what the educator want, like asked to go to the library. They go to there but nothing reading critically. Any students feel that looking at is not important, boring along with can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore this Water, Peace, and War: Confronting the Global Water Crisis can make you sense more interested to read.
