Camino para la educación: bases, esencias e ideas de política educativa (Spanish Edition) Axel Rivas

Este es un libro para reflexionar y hacer mejoras sistémicas en la educación. Dirigido a los planificadores del futuro, aquellos que están construyendo o construirán los cimientos de la sociedad de aquí a 20 años, momento en el que se graduarán los niños y niñas que hoy están empezando el jardín de infantes. Su propósito es repensar la política educativa. Para eso, propone caminos, numerosos caminos.

La primera parte estudia las condiciones necesarias para que la política educativa aumente sus capacidades de impacto y aproveche su amplio –pero no ilimitado– margen de acción. La segunda parte brinda un listado de 90 opciones de política educativa para analizar en cada ministerio de educación y en todos los espacios de debate democrático relacionados con el futuro de la educación. Las 90 opciones se han ordenado en cuatro capítulos: políticas de inclusión y justicia distributiva, políticas docentes, políticas pedagógicas y curriculares, y políticas con uso intensivo de las nuevas tecnologías.

En estas páginas se presenta una síntesis de más de siete años de trabajo en el proyecto Nexos de Política Educativa, desarrollado por el Programa de Educación de CIPPEC. Éste ha sido uno de los mayores laboratorios basado en las esencias e ideas de la política educativa, realizado mediante visitas y trabajos en casi todas las provincias argentinas, el estudio de los procesos de mejora sistémica en todo el mundo y la recopilación de las nuevas discusiones internacionales. Los caminos que aquí se presentan son fruto de esa labor, pensados para abrir la imaginación con respecto a la política educativa y para combatir las injusticias del presente.
