Many men today feel set adrift from the notion of themselves as "father." Times have changed, and the old, familiar, traditional models of parenting no longer work. Society has not yet evolved a strong and workable new model of parenting, or, in particular, of fathering.

Dr. Neil Campbell believes the answer to the question "what is an involved father?" can be found within the experiences and stories of our own lives. In this book, he takes us into his life, first as a son, then as a father, sharing some of the profound insights he learned along the way.
