Hurt Feelings Luciano L'Abate

Hurt feelings are universal and are present in human beings as well as in animals. These feelings are usually avoided by human beings and overlooked by the scientific and professional mental health communities. Yet, if unresolved and not shared with loved ones and professionals, they tend to fester in our bodies and effect our functioning. If not expressed and shared with caring others, anger, sadness and fear are at the bottom of mental illness. Developmentally, each of these feelings respectively gives rise to antisocial acts, depression and severe mental illness. This book suggests that instead of traditional one-on-one, face-to-face, conversation-based interventions, distance writing will allow mental health professionals to assign interactive practice exercises specifically focused on hurt feelings.
