## **Microfones (Portuguese Edition)** Solón do Valle

Neste livro o leitor fará uma viagem ao mundo dos microfones, conhecendo seus vários tipos e entendendo como funcionam, e aprendendo as técnicas para sua utilização, desde uma simples locução até as grandes gravações estéreo e surround com múltiplos microfones.

Sem exagero pode-se afirmar que a captação do som é o processo mais fortemente responsável pela qualidade de áudio de uma gravação, transmissão e mesmo nos eventos ao vivo. Nesta época em que a multimídia está tão presente em nossas vidas, não é difícil entender a importância da clareza das mensagens recebidas. Portanto o domínio das técnicas de microfonação é - hoje mais do que nunca - parte essencial de todo o processo de comunicação. Seja na música, na dramaturgia ou no jornalismo. Seja no rádio, na televisão, nos vídeos ou ao vivo para milhares de espectadores, a mensagem deve chegar clara e plena ao ouvinte.

As ideias e os conceitos são passados pelo autor de forma clara, numa linguagem bastante direta, e muitas vezes original. Para quem está acostumado ao tema, é uma re-leitura muito agradável. Para quem não está, uma forma de se inteirar dele.
