Dan Dare is easily the most famous British comic hero. His adventures appeared in the original Eagle magazine during the 1950s and 1960s, but he also featured briefly in 2000AD before returning in the re-launched Eagle of the 1980s. This innovative Haynes Manual takes a detailed look inside the spaceships, space stations and various other craft that played such a huge part in bringing the excitement of space travel to the stories. Beautifully illustrated with cutaway artwork by Graham Bleathman, and supported by fabulous contemporary comic-strip art, this is the ultimate technical guide to the spaceships of Dan Dare and a wonderful addition to every comic fan's bookshelf.
