Our species is evolving in preparation for the new world on the horizon

- Explains how the increase in intuitive, creative, and abstract-thinking abilities of children as well as incidences of ADHD, dyslexia, and autism signal evolutionary changes at work in humanity--the emergence of the Fifth Root Race
- Connects the appearance of these traits with ancient myths and evolutionary calendars as well as predictions by Teilhard de Chardin, Edgar Cayce, and other visionary seers
- Reveals how these “new kids” act as agents for world change by reflecting back every misguided aspect of business, politics, religion, and culture

The past 30 years have seen a quantum leap in the intuitive, creative, and abstract-thinking abilities of children as well as an unprecedented rise in incidences of ADHD, dyslexia, and autism spectrum disorders. As P. M. H. Atwater explains, we are witnessing evolution at work. The changes in consciousness and brain function evident in these “new kids” signal the widespread emergence of the Fifth Root Race and, fortuitously, coincide with our transition into the Fifth World.

Providing a resource for parents and new kids themselves, Atwater explains what is happening to our species and our world--from neurological changes and climate upheavals to the drive to be constantly “connected” through screen-based technology and the unnecessary widespread use of drug therapies. Sharing individual case histories underscoring the traits of the new-child personality, she reveals how these children, born with universal consciousness encoded in their DNA, act as agents for world change by reflecting back every misguided aspect of business, politics, religion, entertainment, technology, and culture so we can’t ignore what needs to be repaired. Atwater shows how children labeled as autistic or otherwise “damaged” have enormous potential for greatness.

Connecting recent events and cultural shifts with creation myths, evolutionary calendars, and historical records from every culture as well as predictions by Teilhard de Chardin, Sri Aurobindo, Edgar Cayce, and other visionary seers, Atwater shows how the genetic shift now occurring follows the “Rule of Thirds” in its progression. Exploring timelines for the next several hundred years, she explains that the coming new world will be tailored specifically for the new kids, who will lead the way in the Great Shift from old world to new.
