## American Empire Andrew J. BACEVICH

In a challenging, provocative book, Andrew Bacevich reconsiders the assumptions and purposes governing the exercise of American global power. Examining the presidencies of George H. W. Bush and Bill Clinton--as well as George W. Bush's first year in office--he demolishes the view that the United States has failed to devise a replacement for containment as a basis for foreign policy. He finds instead that successive post-Cold War administrations have adhered to a well-defined "strategy of openness." Motivated by the imperative of economic expansionism, that strategy aims to foster an open and integrated international order, thereby perpetuating the undisputed primacy of the world's sole remaining superpower. Moreover, openness is not a new strategy, but has been an abiding preoccupation of policymakers as far back as Woodrow Wilson.

Although based on expectations that eliminating barriers to the movement of trade, capital, and ideas nurtures not only affluence but also democracy, the aggressive pursuit of openness has met considerable resistance. To overcome that resistance, U.S. policymakers have with increasing frequency resorted to force, and military power has emerged as never before as the preferred instrument of American statecraft, resulting in the progressive militarization of U.S. foreign policy.

Neither indictment nor celebration, *American Empire* sees the drive for openness for what it is--a breathtakingly ambitious project aimed at erecting a global imperium. Large questions remain about that project's feasibility and about the human, financial, and moral costs that it will entail. By penetrating the illusions obscuring the reality of U.S. policy, this book marks an essential first step toward finding the answers.

### Table of Contents:

#### Preface

#### Introduction

1. The Myth of the Reluctant Superpower
2. Globalization and Its Conceits
3. Policy by Default
4. Strategy of Openness
5. Full Spectrum Dominance
6. Gunboats and Gurkhas
7. Rise of the Proconsuls
8. Different Drummers, Same Drum
9. War for the Imperium

#### Notes

#### Acknowledgments

#### Index

Reviews of this book:

[A] straightforward "critical interpretation of American statecraft in the 1990s"...he is straightforward, too, in establishing where he stands on the political spectrum about US foreign policy...Bacevich insists that there are no differences in the key assumptions governing the foreign policy of the administrations of Bush I, Clinton, and Bush II--and this will certainly be the subject of passionate debate...Bacevich's argument persuades...by means of engaging prose as well as the compelling and relentless accumulation of detail...Bring[s] badly needed [perspective] to troubled times.

--James A. Miller, Boston Globe

Reviews of this book:

For everyone there's Andrew Bacevich's *American Empire*, an intelligent, elegantly written, highly convincing polemic that demonstrates how the motor of US foreign policy since independence has been the need to guarantee economic growth.

--Dominick Donald, The Guardian

Reviews of this book:

Andrew Bacevich's remarkably clear, cool-headed, and enlightening book is an expression of the United States' unadmitted imperial primacy. It's as bracing as a plunge into a clear mountain lake after exposure to the soporific internationalist conventional wisdom...Bacevich performs an invaluable service by restoring missing historical context and perspective to today's shallow, hand-wringing discussion of Sept.

11...Bacevich's brave, intelligent book restores our vocabulary to debate anew the United States' purpose in the world.

--Richard J. Whalen, Across the Board

Reviews of this book:

To say that Andrew Bacevich's *American Empire* is a truly realistic work of realism is therefore to declare it not only a very good book, but also a pretty rare one. The...
