Wayne Kepron

Cystic Fibrosis: Everything You Need To Know (Your Personal Health) Wayne Kepron

Cystic fibrosis afflicts approximately 30,000 Americans. The average age of survival has been steadily increasing, but not quickly enough: a child born with cystic fibrosis today can only expect to live 35 to 40 years.

In this valuable new addition to the *Your Personal Health* series, Dr. Wayne Kepron offers a comprehensive look at the disease that afflicts so many young people. Topics include:

- Symptoms of cystic fibrosis
- Making a diagnosis
- Complications of the disease
- Treatments (including lung transplants)
- Techniques and precautions in lung care
- Transition into adulthood
- Prospects for gene therapy
- End-of-life issues

Using diagrams, charts and case studies, **Cystic Fibrosis** is designed for patients, their families, and caregivers. It is both a quick reference guide and a tool for in-depth study.
