High Performance Liquid Chromatography in Phytochemical Analysis (Chromatographic Science Series)

High Performance Liquid Chromatography in Phytochemical Analysis (Chromatographic Science Series)

The powerful, efficient technique of high performance liquid chromatography (HPLC) is essential to the standardization of plant-based drugs, identification of plant material, and creation of new herbal medicines. Filling the void in this critical area, **High Performance Liquid Chromatography in Phytochemical Analysis** is the first book to give a complete description of the techniques, materials, and instrumentation of column HPLC and its application to essentially all primary and secondary plant metabolites. Hailing from around the world and with vast expertise in HPLC phytochemical analysis, the contributors present a global, authoritative view of the field.

The book looks at the role of HPLC in the analysis of herbal drugs, quality control of plant products in dietary supplements, and chemosystematics. It also covers the phytochemistry, pharmacology, and biological role of plant metabolites as well as various modes and techniques of HPLC analysis. The book then focuses on HPLC separation, identification, and quantification of particular classes of compounds in a variety of sample types, including plants, plant extracts, and plant-derived products.

Along with its companion volume *Thin Layer Chromatography in Phytochemistry*, this comprehensive book presents the most important analytical approaches used in phytochemical analysis. It will help in solving problems connected with practical separations and the analyses of plant extract fractions of active metabolites.

From reader reviews:

Vance Malik:

The book High Performance Liquid Chromatography in Phytochemical Analysis (Chromatographic Science Series) make one feel enjoy for your spare time. You can use to make your capable a lot more increase. Book can to get your best friend when you getting strain or having big problem with the subject. If you can make looking at a book High Performance Liquid Chromatography in Phytochemical Analysis (Chromatographic Science Series) to get your habit, you can get more advantages, like add your own capable, increase your knowledge about a number of or all subjects. You could know everything if you like open and read a publication High Performance Liquid Chromatography in Phytochemical Analysis (Chromatographic Science Series). Kinds of book are several. It means that, science publication or encyclopedia or others. So , how do you think about this publication?

Robert Thompson:

In this 21st one hundred year, people become competitive in each and every way. By being competitive right now, people have do something to make all of them survives, being in the middle of the particular crowded place and notice by surrounding. One thing that occasionally many people have underestimated the idea for a while is reading. Yep, by reading a publication your ability to survive increase then having chance to endure than other is high. To suit your needs who want to start reading the book, we give you this particular High Performance Liquid Chromatography in Phytochemical Analysis (Chromatographic Science Series) book as basic and daily reading guide. Why, because this book is greater than just a book.

Mary Muncy:

Now a day people that Living in the era just where everything reachable by connect to the internet and the resources included can be true or not demand people to be aware of each data they get. How many people to be smart in having any information nowadays? Of course the correct answer is reading a book. Reading through a book can help persons out of this uncertainty Information particularly this High Performance Liquid Chromatography in Phytochemical Analysis (Chromatographic Science Series) book because book offers you rich information and knowledge. Of course the information in this book hundred per cent guarantees there is no doubt in it as you know.

Alice Edwards:

Reading a reserve tends to be new life style with this era globalization. With examining you can get a lot of information that can give you benefit in your life. Along with book everyone in this world can certainly share their idea. Textbooks can also inspire a lot of people. Plenty of author can inspire their particular reader with their story or even their experience. Not only the story that share in the books. But also they write about the ability about something that you need example. How to get the good score toefl, or how to teach your kids, there are many kinds of book which exist now. The authors nowadays always try to improve their talent in

writing, they also doing some investigation before they write to their book. One of them is this High Performance Liquid Chromatography in Phytochemical Analysis (Chromatographic Science Series).
