The Anti-American Manifesto Ted Rall

In arguably the most radical book published in decades, cartoonist/columnist Ted Rall has produced the book he was always meant to write: a new manifesto for an America heading toward economic and political collapse. While others mourn the damage to the postmodern American capitalist system created by the recent global economic collapse, Rall sees an opportunity. As millions of people lose their jobs and their homes, they and millions more are opening their minds to the possibility of creating a radically different form of government and economic infrastructure.

But there are dangers. As in Russia in 1991, criminals and right-wing extremists are best prepared to fill the power vacuum from a collapsing United States. The best way to stop them, Rall argues, is not collapse—but revolution. Not by other people, but by us. Not in the future, but now. While it's still possible.
