Rivers (Mapping Earthforms) Catherine Chambers, Nicholas Lapthorn

Where is the world's longest river? What is the water cycle? Which river caught fire in 1952? 'Mapping Earthforms' looks at the physical features that shape our landscape. The series explains how these features have developed, how they support and challenge living things today, and how they might change in the future. The series shows how the lives of people, plants, and animals are shaped by their environment, and how this environment is changing.
