Black Rhino and Tickbird want to know why Crocodile is crying. They search the African landscape for other animals who might know the answer. The few they find suggest Crocodile is sad that so many of them face extinction. But when Black Rhino finally asks Crocodile why he's crying, he learns an interesting fact: Crocodile isn't really crying; he's wetting his eyes in the hot, dry sun like all crocodiles do. And Black Rhino learns something else about crocodiles: they can have you for lunch if you don't watch out! Including a photo of each animal featured in the story along with a description of its current status on the list of endangered species, this picture book is a great educational tool. A share of the proceeds from sales of the book will go to the Shompole Community Trust, a land and animal reserve in Kenya.
