## **The Politics of Identity: Class, Culture, Social Movements** Stanley Aronowitz

In *The Politics of Identity*, Stanley Aronowitz offers provocative analysis of the complex interactions of class, politics, and culture. Beginning with the premise that culture is constitutive of class identities, he demonstrates that while feminist analyses of both racial and gay movements have discussed these components of culture, class contributions to cultural identity have yet to be fully examined. In these essays, he uses class as a category for cultural analysis, ranging over issues of ethnicity, race and gender, portrayals of class and culture in the media, as well as a range of other issues related to postmodernism.
